SKILLS

- HTML, CSS and JS - Experienced
- React , figma - Skillful
- Python, Java, PHP - Beginner
- MySQL / Postgre / MongoDB - Skillful
- Version Control - Beginner

LANGUAGE

Nepali - Expert
English - Experienced

SUMMARY

I am an aspiring front-end developer passionate about creating visually engaging and user-friendly websites and applications. With a strong foundation in HTML, CSS, and JavaScript, I am constantly exploring new tools and frameworks to improve my skills. I am excited about responsive design, ensuring websites work seamlessly across various devices, and enhancing the user experience (UX) through interactive and intuitive interfaces.

EDUCATION

+2 Science

Trinity International College / Dillibazar /Kathmandu / February, 2017 - August, 2019

BCS. Hons

IIMS College / Dhobidhara /Kathmandu / February, 2022 - Present

TRAINING/CERTIFICATIONS

MERN stack

Mindrisers Institute of Technology , 2024

Networking Essentials

CISCO , 2022

Web- Programming

Coursera.org , 2023

PROJECTS INVOLVED

Coffee Webpage

I created a simple coffee website during my early semester using HTML, CSS, and JavaScript. This project helped me practice the fundamentals of front-end development and improve my skills in building responsive and interactive web pages

Healthcare Website

This is a small project I built within a 2-day timeframe using html, css and js for my college project initial design.

Irrigation Hub

To expand my programming knowledge, I challenged myself by using PHP in my recent projects. One project involved building a simple admin page to handle CRUD operations, while another was an irrigation website showcasing products. This experience helped me strengthen both my front-end and back-end development skills.
